# 2023 Decision Packages

## Making Child Care Work for Families

### What?

A multi-pronged approach to simplify and standardize child care subsidy and EL programs. These will provide 8,775 additional families with access to WCCC and increase ECEAP access to an additional 168 families.

### Why?

- Ensure that our most vulnerable children have access to high quality care
- Simplify provider and family experience with the subsidy system

### Components Requested:

- Authorizing full-time care for all children
- Adding more student parents to eligibility
- Requiring only one parent to participate in an approved activity
- Allowing participation in ECEAP and Head Start as an approved activity for WCCC
- Allowing family participation in medical activities as an approved activity
- Allowing job search as an approved activity at application and reapplication
- Removing 12-month restriction on Homeless Grace Period
- Exclude child support, Social Security, and Supplemental Security payments as countable income for Working Connections Child Care and ECEAP
- Increase Family Access to Child Welfare Early Learning Navigators
- Transition Child Welfare Child Care to Working Connections
- Outreach and Communication Contracted Services

# 2023 Decision Packages

## Supporting Providers for Child Care Access

### What?

DCYF is proposing to simplify some administrative processes to reduce the burden for providers who participate in subsidy and to provide targeted supports to make it feasible for providers to serve specific populations of children.

### Why?

Access to high-quality child care for families can be limited by structural constraints on providers. This is especially true for providers serving children on WCCC and those serving infants/toddlers.

#### Components Requested:

- Sustainable and Predictable Subsidy Payment
- Non-Standard Hours Bonus Increase
- Child Care Complex Needs Fund Expansion
- Early Childhood Equity Grants Expansion
- Expand Early ECEAP in areas of most need
- Contracted slots to secure access for children involved in protective services
- Increase infant rate enhancement for child care subsidy from \$90/month to \$500/month
- Align Overpayment Collection with Federal Requirements

# 2023 Decision Packages

## Preparing for ECEAP Entitlement

### What?

Increased investments to continue building a flexible, responsive, and robust system that better supports ECEAP and other early learning providers to meet entitlement.

### Why?

- ECEAP is proven to get kids furthest from opportunity ready for kindergarten.
- Enables the next phase of ECEAP expansion toward meeting entitlement in the 2026-27 school year as required by FSKA.

### Components Requested:

- Rate increase for school day and working day slots
- Slot increases to meet entitlement – 6,000 new slots (85% SD, 15% WD)
- Slot conversion to meet child and family needs – 5,000 PD to SD
- ECEAP Complex Needs Fund expansion
- Scholarships for workforce development
- Entitlement infrastructure – readiness TA, quality supports, DCYF program supports

## Next Steps – DCYF will...

---

**Gather feedback from multiple sources across the child care and early learning field:** eg. ELAC, IPEL, Parent Ambassadors, ECEAP Directors, Provider Supports Subcommittee, CCA Design Team, Washington Communities for Children

**Pull together more concrete proposals with fiscal estimates.**

**Revisit Parent Advisory Group – we will join summer/fall meetings to iterate on ideas, will track what ideas move forward and why/why not**
